# Countertop Hydroponics for Beginners

**JUNE 11, 2024**  
**3:00 - 4:30 PM**

Discover how to cultivate a range of plants hydroponically right from your kitchen countertop throughout the year. Explore different hydroponic systems, from store-bought options to cost-effective ones you can create at home. The presenter will cover container choices, seed germination, growing mediums, nutrient solutions/circulation, grow lights, and transplanting.

There is no registration fee.  
Limited to 100 guests  
Please pre-register at
